Post #1

Hallo, folks.

Please help us to consider one know-how.

In standard follower:

Newbie

Group: Member

Posts: 3

Joined: 7-January 09

From: Lithuania

Member No.: 9,258

I make 2 small deeps (depth ~1 mm)...

and fill them red and green paint.

This is view with 15 rounds.

This is view with 16 rounds.

Main question: IS IT LEGALLY FOR PRODUCTION Div, or 1mm depth drilling in follower don't acceptable?

This deeps needed only for protect paint from deletion.

Thanks in forward.
